

Safety Committee's
MONTHLY
TIP

DID YOU KNOW??

**BETWEEN 2019-2023 JULY WAS THE
PEAK MONTH FOR GRILL FIRES.**

GRILLING SAFETY TIPS

1. PROPANE TANKS- CHECK THE GAS TANK FOR LEAKS BEFORE USE IN THE MONTHS AHEAD.
2. KEEP YOUR GRILL CLEAN BY REMOVING GREASE OR FAT BUILDUP FROM THE GRILLS AND IN THE TRAYS BELOW THE GRILL.
3. PLACE THE GRILL AWAY FROM THE HOME, DECK, RAILINGS, AND OUT FROM UNDER LEAVES AND BRANCHES.
4. ALWAYS MAKE SURE THAT YOUR GAS GRILL LID IS OPEN BEFORE LIGHTING IT.
5. IF YOU USE STARTER FLUID WHEN CHARCOAL GRILLING, ONLY USE CHARCOAL STARTER FLUID. **NEVER ADD CHARCOAL FLUID OR OTHER FLAMMABLE LIQUIDS TO THE FIRE.** WHEN YOU HAVE OR ARE FINISHED GRILLING, LET THE COALS COOL COMPLETELY BEFORE DISPOSING IN A METAL CONTAINER.
6. **NEVER** LEAVE YOUR GRILL UNATTENDED WHEN IN USE.
7. USE LONG-HANDLED GRILLING TOOLS TO ENSURE CLEARANCE FROM HEAT AND FLAMES.
